

Our staff is deliberately comprised of dedicated, highly-skilled teachers. We ensure that every teacher is an energetic, caring professional, who is responsive to the unique gifts, talents & challenges that arise when teaching younger children. Our teachers take seriously their vital role in your child's road to education and make meaningful, memorable connections. It is a point of pride that many of our staff has remained with our program for at least ten years, and as such, are veterans in curriculum development and consistency. It is our goal that EVERY student in our program is given a "Teacher of the Year."
